# MADHU DAMODHAR

Hyderabad, Telangana, 500089 | [madhudamodhar9@gmail.com](mailto:madhudamodhar9@gmail.com) | 9014998729 | [LinkedIn](#) | [Github](#)

As a focused MCA student and an up-and-coming Full Stack Java Developer as well, I have hands-on work experience in Java Full Stack technologies as a result of various projects undertaken. Full Stack experience in Frontend and Backend with great willingness to help bring new ideas to the IT industry. Due for graduation in 2025 and currently looking for a professional career that will enable me to utilize my skills and gain more experience.

## Experience:

**Volunteer Web Developer |University Post Graduate College | Hyderabad , Telangana | 2024-Present**

➢ In a team of five people volunteered to maintain and update the college website by introducing new features. Engaged in coding with HTML, CSS, and JavaScript to add interactive elements and visuals to the website, solving problems while enhancing net interface and active development as well.

## Projects:

➢ **Employee Management System**
   o Developed Full Stack project Employee Management System using Java , HTML, CSS and JavaScript for frontend and Java with Spring Boot for backend as a part of this project I had developed application to efficiently manage(employee data manipulations)and manipulate employee data front end and back end technologies were showcase

   **[Ems.in](#)**

➢ **E-Commerce Website**
   o Developed a full-stack E-Commerce website using Java on the back-end and React.js on the front-end. Features include product search, cart activity, and order processing.

   **[Eshop.in](#)**

➢ **College Website**
   o Worked as part of a five-member team to maintain and enrich the college website by developing new features. Used HTML, CSS, and JavaScript to implement changes and enhancements that contributed to a more dynamic and useful online presence.

   **[Upgcs.in](#)**

➢ **Full Stack Todo Application**
   o Developed a comprehensive Full Stack Todo Application with functionalities for users to add, edit and remove tasks. The application was constructed using HTML, CSS, and JavaScript for the front-end and Java with Spring Boot for the back-end to allow the user to manage tasks easily, including updating tasks, as well as deleting those they no longer want.

   **[Link.in](#)**

➢ **Todo Application**
   o Developed a complete full-stack Todo application where users are able to add, edit, and delete tasks. Using React.js on the frontend, I enabled a seamless pseudo-CRUD experience, with the functionality to edit tasks and remove unwanted items.

   **[TodoApp.in](#)**

➢ **Portfolio Website**
   o Developed a personal portfolio website to display work and ability. Utilized HTML, CSS, and JavaScript to create an engaging, interactive, and visually appealing product showcasing skills and expertise in front-end development and personal branding.
